Subject: RE: PFAS testing/ORD

Jeff and I chatted and we think he can take this on. He'll be reaching out to you to further discussion your vision for the ORD coordination on the testing strategy.

He'll also be reaching out to Ed on the container issue to ensure a smooth transition.

Let me talk with Jeff about his bandwidth. There's been a slug of homeland security stuff lately.

Can we get back to you next week?

Rick Keigwin

Rick – the reason I tried to call the other day (and never got back to), was to say that I reached out and discussed this with Jeff D (on that same day), as well as pleading for his help in coordinating the PFAS container issue across OCSPP.

We don't have a lot of benchstrength/expertise in PFAS in OPPT generally, and I feel really strongly that we need to build any test strategy based on ORD's efforts to define categories. I also had an initial conversation regarding collaboration with ORD on a Test Strategy with Jeff Frithsen.

So, are you and Jeff OK with Jeff helping (leading) on working with ORD on any PFAS testing strategy? And while I am at it, coordinating across OCSPP on the container issue?

Tala R. Henry, Ph.D.
Deputy Director

We just raised w Chris and Jennifer – they seemed interested and amenable – maybe reach out and see what you can get started?

Thanks
Michal
